

ROYAL CANADIAN
AIR FORCE

BOOTS FLYING
DOG BOOK

This is the log book of Flying Officer Thomas Bernard McAneney. He was the pilot at the controls of a #150 Squadron Wellington X bomber (MF 249) that went missing during a night mission in Hungary on June 25/26, 1944. His book and associated mementos were kept by Father Wilfrid McAneney (Thomas's youngest brother) until Wilf's death in December 2017.

The log begins with training in Canada and the UK, and covers every detail of his operational service. Every flight, training session, aircraft, and sortie is documented. At almost 100 pages, it is meticulous and monotonous, but contains fascinating details. All but the last two entries were made by F/O McAneney.

The disappearance of MF 249 was unresolved for over two years. Thomas's family waited, first for a year while he was missing, and then for another year while he was officially presumed dead even though he, his crew, and their aircraft had not been found. His father, Joseph Thomas McAneney died knowing that his son had been killed, but little more. His mother, Maggie McAneney (Artkin) dealt with the loss of her husband and son concurrently.

In order to tell the end of the story of Thomas's service and sacrifice, I have added family keepsakes and pages from his WWII service file stored by Library and Archives Canada. These details begin on page 112 in a scrap-book style, using the blank pages of Thomas's unfinished log book.

The additions are sparse and text explanations are deliberately omitted. It is left to the reader to note the dates of correspondence, and imagine the sequence of events and the lingering tragedy experienced by his family in the period during which his fate was unknown.

Thomas had left a fiancée behind in Toronto. Betty Cloutier lost two brothers in the war before word of Thomas's disappearance reached her in early July of 1944. Her photograph was among his personal effects and a copy remains in his service file. She eventually married, had children, and grandchildren. For Thomas McAneney, we can only imagine what might have been.

Let us forget.

Dedicated to the memory of the crew of MF 249, #150 Squadron, RCAF.

Pilot: F/O T.B. McAneney

Navigator: F/Sgt F.S. Sparrow

WOP/Air: F/Sgt F. Jeacocke - P.O.W. (survived)

A/B: Sgt T. Bell

A/G: Sgt E.C. Hum

INSTRUCTIONS

1. This book is an official document and is the property of His Majesty's Government.
2. An accurate and detailed record is to be kept in the log of all flights undertaken in service aircraft by the individual to whom it relates.
3. Monthly flying will be analyzed by aircraft types and inserted in red ink. The stamp will be inserted on the left-hand page appropriately aligned to the ruling.
4. The annual summary and assessment will be completed on Form R.95A and inserted in the appropriate page of the log. This form will also be used when a pilot is posted or attached to another unit for flying duties.

Manning Report: ^{23.7.44} St. Hubert, Luc., Valcartier, Luc.
H.L.: Victoriaville, Luc.

Thomas Bernard McAneney

CERTIFIED THAT I have received instruction in and am fully conversant with:-

Type of Aircraft... *RAF Sea King*

Date..... *13/1/42*

- (a) Cockpit Layout.
- (b) Gas, oil and electrical systems
- (c) Flap Mechanism and Correct use)including emergency
- (d) Undercarriage mechanism and correct use) system (if any).
- (e) Mixture control and use
- (f) Airscrew Pitch Control and use, if applicable.
- (g) Carburettor heating, control and use.
- (h) Winterization Controls, Cold weather oil and Cylinder head temperatures, Oil dilution (functioning of) etc.
- (j) Aircraft emergency exits and Action in the event of fire.
- (k) Endurance and fuel consumption.
- (l) Speeds for various manoeuvres.
- (m) Spinning possibilities and recovery of Twin Engine Aircraft.
- (n) Flying one engine.
- (o) Analysis of Flying accidents.

I have committed to memory the correct sequence of cockpit drill prior to and after taking off and prior to and after landing. I have carefully studied the diagrams describing a correct circuit and "Drill of Vital Actions" from "Before taking off" till Landing".

I have read and understood Station Flying Orders, and all Squadron and Flight Orders, relative to any and all types of flying carried out at this Unit.

MONTH	DATE				
					Design a plane, the head men say, It must be built in such a way, That the dumbest mug can fly hands off, Make the hardest landings still feel soft, Make up for brains that the pilot lacks, Make the seats lean forward and still lean back, Supply the demand will be the thing, Forget the span of chord and wing, The spar must be just six feet long, For scraps of spruce cost but a song. The fuselage can be tied with string, Or by a similar method hung to the wing, It must be safe and in the main, Be able to withstand a hurricane, It must be fast and not land hot (What a helluva job the designer's got). Fast and light and comfortable too, With a cruising range to Timbuctoo. Of course, this is no common hack, For it must carry the load of a ten ton Mack. It must climb straight up and land straight down, But the pilot must scarcely feel the ground. Yes, flaps and brakes and retracting gear, Hell's bell! They must think the Millennium's here, And one last word the head men say, It's got to be finished by yesterday. On second thought, there's one thing more, They'll have to sell at the .10¢ store.

Wing Commander E.R.M. Walker,
150 Squadron,
Royal Air Force,
C. M. F.

5th July, 1944. 1

Dear Mr. McAneney,

Before you receive this letter, you will have been informed by the Air Ministry of the fact that your son, Flying Officer Thomas Bernard McAneney, is missing as the result of air operations.

I regret to say that at the moment all I can tell you is that your son took off at 20.46 hours, 25/6/44, to attack a target in Hungary, since when no news has been received of his aircraft or his crew.

Whilst it would be wrong for me to raise false hopes, as it would be for me to give you the impression that your son is no longer alive, I must tell you that there is always the possibility of his being a Prisoner of War. If such is the case it will be ascertained in due course, and, in any event, endeavours to trace your son will continue and any information that is obtained will be immediately communicated to you.

You will wish to know that your son's personal effects have been taken care of and will be forwarded to you as soon as possible by the Standing Committee of Adjustment.

May I now express the very great sympathy which I, as his Commanding Officer, and all his friends and colleagues in the Unit, feel with you in your present anxiety. Your son was a Pilot in whom I had the utmost confidence and he was a popular member of his Mess - he is missed greatly.

I have enclosed the names of the next of kin of the other members of your son's crew, as you will no doubt, wish to write to them. Under a recent Air Ministry order I am not permitted to send you the addresses of next of kin, but if you send any letters, addressed and sealed, to me, I will see that they are forwarded.

26 JUL 1944

PILOT, PUPIL

PASSENGER

DUTY

Dear Mr. McManney,

Thank you for your letter concerning your brother, Flying Officer T.B. McManney, who was reported missing after air operations on the night of the 25th/26th June, 1944.

The only details available are that he was Captain of an aircraft, which took off to attack a target in Hungary, and failed to return. No information has since been received concerning him or any of the other members of the crew, however, enquiries are continuing through all available sources, and should further news be received you will be informed.

Concerning your request for the home addresses of the other members of the crew, I regret that it is not the policy of the Air Ministry to disclose addresses of next of kin, however, their names are as follows, and should you wish to address letters to them, and send them unsealed but with postage attached to this office, they will be forwarded.

1272578. F/Sgt. Sparrow, F.S.- Father - Mr. Sparrow.

544054. Sgt. Bell, T. - Father - Mr. W. Bell.

(Cont.Overleaf).

(Cont.)

A.425310. F/Sgt. Jeacocks, S. - Wife - Mrs. S. Jeacocks.

1243985. Sgt. Hum, E. - Wife - Mrs. D.M. Hum.

Please accept my sympathy with you in your anxiety.

Yours sincerely,

WELLINGTON M.F. 249.

Sir,

I have the honour to forward the attached copies of reports regarding an aircraft crash near SZABADBATTYAN, Hungary, on 25th June 1944, which presumably refers to the above aircraft, which was reported missing in an attack on Hungary on the night of 25th June, 1944. Particulars of the crew are shown below.

Can.J.18232	F/O.	McAnemey T.B.	Pilot.	Death Presumed.
1272578	F/Sgt.	Sparrow F.S.	Nav.	Death Presumed.

Flying Officer S.JEACOCKE Am-425210

Further to telephone conversation of this morning between your Section and Flight Lieutenant Seaman of this Headquarters, the following details are advised you concerning the statement of P/O Jeacocke who was the wireless operator in the crew of a Wellington to attack a target at Budapest on the 25th June, 1944.

2. Jeacocke states :-

"After setting course from Lake Balatrol to Budapest we encountered terrific flak which appeared to be box barrage at first, but after taking evasive action proved to be predicted. We were using window which appeared to upset the accuracy for a couple of minutes but we were suddenly hit and I found myself lying on the floor of the aircraft beside the bed. I was on look out duties in the ~~bedrooms~~ ^{astrolone}. I tried to struggle onto my feet but could not do so because of the speed at which we were going down. The port side was on fire. I believe from the port engine back as far as the tri-cell shute position. Not knowing that my telephone plug was out, I expected at any moment to hear the order to bale out and so continued trying to get on to my knees at least in order to crawl to the emergency exit when the bale out order should be given. The aircraft suddenly commenced to spin and I found it impossible to even roll myself over. I counted four spins and knew nothing further until I found myself conscious and falling through space. As I had been flying with my parachute on for the whole of the astrolone duties I pulled the ripcord and it opened at somewhere between two and four thousand feet. While coming down I noticed a fire on the deck which later proved to be our aircraft. I believe the position of the crash was about ten miles from the northern tip of the lake Balatrol and I knew there was a three or four line railway connecting two towns about 100 yards west of my position. I think I must have been blown out of the aircraft by the explosion of the photoflash or possibly the port fuel tanks. As I found my telephone cable and plug burnt into my left flying boot on landing and proving I was not on the inter-com with the crew I don't know if any of the rest of the crew up the front had been killed when we were hit but knowing from past conversations that I was the only one who used to fit my parachute over the defended areas I presume that all the crew would find it impossible to leave the aircraft. As there was a huge explosion about 30 seconds after I landed which I believe to have been the bomb load I presume then to have been killed. I received no news of them later, even after visiting the casualty section of Air Min. An enemy motor vehicle visited the wreckage late the following afternoon but as I kept myself hidden in the wheat field I don't know if they found any bodies. They remained about an hour or more there before I heard the vehicle driven away. I also heard civilian women talking and laughing amidst the noise of tearing up cloth which I believe was parachute silk".

3. Jeacocke was captured on the 30th June and after spending a few weeks in solitary confinement in a Budapest jail was taken into Germany to a prisoner of war camp.

ADDRESS REPLY TO:

THE SECRETARY,

DEPARTMENT OF NATIONAL DEFENCE FOR AIR,

OTTAWA, ONTARIO.

OUR FILE J18232 (R.C.)

REF. YOUR:

DATED

ROYAL CANADIAN AIR FORCE

OTTAWA, Canada, 20th June, 1946.

Mr. J.T. McAneney,
462 Brock Avenue,
Toronto, Ontario.

Dear Mr. McAneney:

It is with deep regret that I have learned through the Royal Air Force Missing Research and Enquiry Service that they have received a report from the Municipal Magistracy of Szabadbattyán, Hungary, stating that the aircraft in which your son, Flying Officer Thomas Bernard McAneney, was flying, crashed on the Lajostelep Estate, near Szabadbattyán, and the crew, with the exception of Flying Officer Jeacocke, lost their lives.

Due to the severe nature of the crash, however, Sergeant Hum was the only member of the crew who could be identified and the remains of the four crew members were buried in a communal grave by the Minister of the Palubattyán Church, with a religious service.

The reverent care of the burial places of all who served in the Forces of the British Empire is the task of the Imperial War Graves Commission. Already eminent architects are at work, planning the construction of beautiful cemeteries and each individual grave will be supported and sustained by the nations of the Empire. I hope that it may be of some consolation to you to know that your gallant son's grave is in sacred care and keeping.

May I again offer you my most sincere sympathy in the great loss you have sustained.

Yours sincerely,

R.C.A.F. Casualty Officer,
for Chief of the Air Staff.

TOTALS CARRIED FORWARD

J18232 (RO)

OTTAWA, Canada, February 25, 1948.

Mrs. J. T. McAnenay,
462 Brook Avenue,
Toronto, Ontario.

Dear Mrs. McAnenay:

It is with regret that I refer to the loss of your son, Flying Officer Thomas Bernhard McAnenay, and our letter of June 20th, 1946, which advised that your son and three members of his crew were buried in the cemetery at Szabadbattyan, Hungary, but a report has been received from our Missing Research and Enquiry Service that your boy and those members of his crew buried with him have been moved to the Budapest British Military Cemetery, Budapest, Hungary, and are at rest in Collective Graves 5, 6, 7, and 8 (marked and registered in their names), Row C, Plot 2, of that cemetery.

This permanent British Military Cemetery will be maintained in perpetuity by the Imperial War Graves Commission (of which Canada is a member) and headstones will be erected at the graves. Unhappily, there are great numbers of these headstones to be erected, and it will quite naturally take considerable time. It is not necessary to write to the Imperial War Graves Commission, as you will be contacted by them before the stone is prepared.

At approximately the same time as the report that your boy and his crew had been moved to a British Military Cemetery, a letter was received here on your behalf from Mrs. Orpha Edwards, 1st Vice-President of the Silver Cross Women of Canada (R.C.A.F. Chapter), Toronto, who also asked if it was possible to obtain a photograph of your boy's grave. All the graves of our Fallen are photographed and copies are sent here to be conveyed to the next-of-kin, but unfortunately the task is a very great one and has been delayed by a shortage of labour and materials, but you are assured that photographs will be taken, and also that when they are received here they will be conveyed to you promptly. I am forwarding a copy of this letter to Mrs. Edwards.

I would like to take this opportunity of expressing to

Italy,
June 13, 1944.

Dear John:

It's hot cooking! Must be rather exciting times in your part of the world. At any rate you must be busy because I've had two letters from Mrs. How so say that you hadn't missed for a good while.

The birds over here are having a busy morning bugging Jerry up in great circles and small heaps. The flock was noticeable from where we sat, and gazed.

Have sort of relaxed the past week and got out to a few shows to the beach and had a change of scenery for a couple of meals. It's delightfully refreshing. Have been doing a lot of relaxing on the

camp, too. No air seats, some reading, lots of fly and mosquito chasing. There's losing some of our very few Canadians. Both from different crews they've each finished their first tour in fine fettle and have relaxed to a state of dread at the idea of instructing at U.F. 5's.

I've been lying in the sun but it's too bloody hot. It's been warm for a good while - and sunny but only the past week has the humidity risen to a point where one begins to perspire. Haven't heard any news of the French Division for two days but would have heard if there'd been a reverse. Hope you're getting lots

months. Could take
another couple of years
that way. I'll probably
have to end any case. I'll
still like to see India,
though the rest of my kids
shudder at the idea.

Well, it's time for another
load of sun, and then
sea. Be good, Mac. Be
careful. Best of luck.

Love,
D. Hill

D. Hill hasn't been with me for a long time.
